

*Just joking.*

**There's no need to resort to death threats.**

My terrific clients, suppliers and other business associates made 2000 a great year for WordKraft, and the coming year looks just as good.

So don't worry about Punxsatawney Phil. He's safe and secure for now.

But keep calling WordKraft for your copywriting, or we may have to get rough with groundhog.

### *Why a Groundhog Day card?*

Because we do things a bit differently at WordKraft. We take the road less travelled. We pick what's behind door #2. We try to bring you a ray of sunshine during an otherwise uneventful month.

## WordKards

They're good enough for *your* friends.
