Groundhog Remote Control App

Status

WordKraft Groundhog App

Operating Instructions

Take total remote control of your groundhog with the WordKraft Groundhog App*. At home, on the road and anywhere you are, you never have to worry about what is happening with your hog.

Select the desired groundhog activity by pressing the appropriate button.

STATUS:

Check the current activity of your groundhog.

UP:

Press early February 2 to check for shadow.

DOWN:

Return groundhog to his/her hole.

The other six function buttons allow you to manage all common groundhog activities.

EAT: They love grubs and nuts

SLEEP: Mainly used in winter

DIG: Renovate the burrow

POOP: Mostly grubs and nuts

PREEN: Keep your hog tidy

MATE: Restock the herd

CAUTION: Groundhogs can become surly and uncooperative without notice. Manage your groundhog with care.
